Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Woodbridge Township Fire District No. 11, as of and for the year ended December 31, 2016 and the related notes to the financial statements, which collectively comprise the Woodbridge Township Fire District No. 11's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in the Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Qualified Opinion on Aggregate Remaining Fund Information

The financial statements of the Length of Service Award Program (LOSAP) Trust Fund have not been audited, and we were not required by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, to audit nor were we engaged to audit the LOSAP Fund financial statements as part of our audit of the District's financial statements. The LOSAP Trust Fund financial activities are included in the District's Fiduciary Fund, and represent 96 percent of the assets and liabilities of the District's Fiduciary Funds as of December 31, 2016.

Qualified Opinion

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we audited the financial activities of the Length of Service Award Program Trust Fund, as described in the "Basis for Qualified Opinion on Aggregate Remaining Fund Information" paragraph above, the financial statements referred to above present fairly, in all material respects, the respective financial position of the aggregate remaining fund information of the Woodbridge Township Fire District No. 11 as of December 31, 2016, and the respective changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and each major fund, of the Woodbridge Township Fire District No. 11 as of December 31, 2016, and the respective changes in financial position thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Woodbridge Township Fire District No. 11's basic financial statements. The introductory section, combining fund financial statements and financial schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and financial schedules have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with Government Auditing Standards, we have also issued our report dated April 26, 2017 on our consideration of the Woodbridge Township Fire District No. 11's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Woodbridge Township Fire District No. 11's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION

PART 1

**WOODBRIIDGE TOWNSHIP FIRE DISTRICT NO. 11
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2016**

The discussion and analysis of Woodbridge Township Fire District No. 11's financial performance provides an overall review of the District's financial activities for the year ended December 31, 2016. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the financial statements and related notes which comprise the basic financial statements to enhance their understanding of the District's financial performance.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 – *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* issued in June 1999.

Financial Highlights

Key financial highlights for 2016 are as follows:

In total, net position increased \$106,918 from 2015.

General revenues accounted for \$1,217,803 or 99 percent of all revenues. Program specific revenues accounted for \$7,825 or 1 percent of total revenues of \$1,225,628.

Total assets of governmental activities increased by \$7,256 as cash and cash equivalents increased by \$88,332 and net capital assets decreased by \$81,076.

The District had \$1,118,710 in expenses; only \$7,825 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes) of \$1,217,803 were adequate to provide for these programs.

Among governmental funds, the General Fund had \$1,075,628 in revenues and \$1,010,815 in expenditures. The General Fund's fund balance increased \$64,813 over 2015.

Using this Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Woodbridge Township Fire District No. 11 as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

Government-Wide Financial Statements (Statement of Net Position and Statement of Activities)

These statements provide both short-term and long-term information about the District's overall financial status.

Fund Financial Statements

Fund financial statements focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.

Fund Financial Statements (Continued)

- The governmental funds statements tell how basic services were financed in the short term as well as what remains for future spending.
- Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

The District's funds do not currently contain capital assets, although they can.
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year, expenditures when goods or services have been received and the related liability is due and payable	All additions and deductions, during the year, regardless of when cash is received or paid

Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. In the case of Woodbridge Township Fire District No. 11, the General Fund is by far the most significant fund.

Reporting the District as a Whole Statement of Net Position and the Statement of Activities

While this document contains several funds used by the District to provide programs and activities, the view of the District, as a whole looks at all financial transactions and asks the question, "How did we do financially during 2016?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets, deferred outflows/inflows of resources and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities (Continued)

These two statements report the District's net position and changes in net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required programs and other factors.

Reporting the District's Most Significant Funds

Fund Financial Statements

Fund financial statements provide detailed information about the District's funds. The District uses many funds to account for a multitude of financial transactions. The District's governmental funds are the General Fund and Capital Projects Fund.

Governmental Funds

The District's activities are reported in governmental funds, which focus on how money flows in and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-wide and fund financial statements.

The District as a Whole

Recall that the Statement of Net Position provides the perspective of the District as a whole. Net position may serve over time as a useful indicator of a government's financial position. The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Governmental Activities

The unique nature of property taxes in New Jersey creates the legal requirements to annually seek voter approval for the District operations. Property taxes made up 99.1% and 96.5% of revenues for governmental activities for Woodbridge Township Fire District No. 11 for 2016 and 2015, respectively. The District's total revenues were \$1,225,628 and \$1,258,036 for the years ended December 31, 2016 and 2015, respectively. Charges for services accounted for .3% and .2% of revenues, operating grants and contributions accounted for .3% and .5% of revenues and miscellaneous revenue accounted for .3% and 3.2% for the years ended December 31, 2016 and 2015, respectively.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

Total Expenses	\$ 1,118,710	\$ 1,110,885	\$ 1,100,598	\$ 1,092,250

Administration includes expenses associated with administrative and financial supervision of the District.

Cost of Operations and Maintenance involve keeping equipment in an effective working condition.

The District's Funds

All governmental funds (i.e., general fund and capital projects fund are presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$1,225,628 and \$1,258,036 and expenditures were \$1,010,815 and \$1,512,090 for the years ended December 31, 2016 and 2015, respectively. The change in fund balance for 2016 in the general fund was an increase of \$64,813 and an increase of \$150,000 in the capital projects fund.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedule presents a summary of the revenues of the Governmental Funds for the years ended December 31, 2016 and 2015, and the amount of increases and decreases in relation to prior year amounts.

Total Net Change in Fund Balances - Governmental Funds (From B-2) \$ 214,813

Amounts reported for governmental activities in the Statement of Activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. WOODBRIIDGE TOWNSHIP FIRE DISTRICT NO. 11
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Woodbridge Township Fire District No. 11 (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. Significant changes in the Statement include the following:

A Management's Discussion and Analysis (MD&A) providing an analysis of the District's overall financial position and results of operations.

Financial statements prepared using full-accrual accounting for all of the District's activities.

A. Reporting Entity:

The Woodbridge Township Fire District No. 11 is a political subdivision of the Township of Woodbridge, Middlesex County, New Jersey. The District functions independently through a Board of Fire Commissioners. The board is comprised of five members elected to three-year terms. The annual Fire District election is held the third Saturday of February.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based on the foregoing criteria, the District has no component units. Furthermore, the District is not includable in any other reporting entity as a component unit.

B. New Accounting Standards

During fiscal years 2016 and 2015, the District adopted the following GASB statements:

- GASB No. 72, *Fair Value Measurement and Application*. This Statement addresses accounting and financial reporting issues related to fair value measurements. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement applies to donated capital assets, donated works of art, donated historical treasures, and also to similar assets and capital assets received in a service concession arrangement. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.
- GASB No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The objective of this Statement is to identify – in the context of the current governmental financial reporting environment – the hierarchy of generally accepted accounting principles (GAAP). The “GAAP hierarchy” consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. New Accounting Standards (Continued)

- GASB No. 73, *Accounting and Financial Reporting for Pensions and Related Assets that Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability.
- GASB No. 77, *Tax Abatement Disclosures*. The requirements of this Statement will improve financial reporting by providing disclosure of information about the nature and magnitude of tax abatements that will make these transactions more transparent to financial statement users. As a result, users will be better equipped to understand (1) how tax abatements affect a government's future ability to raise resources and meet its financial obligations and (2) the impact those abatements have on a government's financial position and economic condition.
- GASB No. 82, *Pension Issues – An Amendment of GASB Statements No. 67, No. 68, and No. 73*. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pension*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

The other accounting standards that the District is currently reviewing for applicability and potential impact on the financial statements is:

- GASB No. 74, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans*, will be effective beginning with the fiscal year ending December 31, 2017. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability.
- GASB No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, will be effective beginning with the fiscal year ending December 31, 2018. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities.

C. Basis of Presentation - Financial Statements:

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. Direct *expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to residents or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Fund Financial Statements

The District reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Capital Projects Fund – The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities. The financial resources are derived from the issuance of debt or by reservation of fund balance that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Additionally, the government reports the following fund types:

The Fiduciary Funds are used to account for resources legally held by the District in a trust for State unemployment insurance claims and Length of Service Award Program activities. All resources of the fund, including any earnings on invested resources, may be used to support the intended purpose. There is no requirement that any portion of their resources be preserved as capital.

Reclassifications

Certain reclassifications may have been made to the December 31, 2015 balance to conform to the December 31, 2016 presentation.

WOODBIDGE TOWNSHIP FIRE DISTRICT NO. 11
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the District receives cash.

Private-sector standards of accounting, and financial reporting issued by the Financial Accounting Standards Board (FASB) prior to December 1, 1989, generally are followed in the government-wide and fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board (GASB).

Amounts reported as *program revenues* include 1) charges for services provided 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes.

E. Budgets/Budgetary Control

Annual budgets are prepared each year for the operations of the fire district. The budgets are approved by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. The budgets are then voted upon by the public, at the annual fire district election held on the third Saturday in February. Budgetary transfers may be made during the last two months of the year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end. During 2016 the original budget was increased by \$51,248 as a result of reappropriation of prior year general fund encumbrances.

WOODBIDGE TOWNSHIP FIRE DISTRICT NO. 11
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Encumbrances

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

G. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position

1. *Cash, Cash Equivalents and Investments:*

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. All investments are stated at fair value.

New Jersey fire districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statutes provide a list of permissible investments that may be purchased by New Jersey fire districts. (See Note 2)

The District has previously adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

2. *Inventories and Prepaid Expenses:*

Inventories and prepaid expenses, which benefit future periods are recorded as an expenditure during the year of purchase.

3. *Capital Assets:*

Capital assets, which include buildings and building improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extended assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position
(Continued)

3. Capital Assets: (Continued)

Buildings and improvements and furniture and equipment of the District are depreciated using the straight-line method over the following estimated lives:

<u>Assets</u>	<u>Years</u>
Buildings and Building Improvements	40
Fire Trucks	25
Other Vehicles	5
Equipment	5

4. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has one item which arises only under the accrual basis of accounting that qualifies for reporting in this category. The item that qualifies for reporting in this category is the deferred amounts on net pension liability. Deferred amounts on net pension liability are reported in the district-wide statement of net position and result from: (1) differences between expected and actual experience; (2) changes in assumptions; (3) net difference between projected and actual investment earnings on pension plan investments; (4) changes in proportion and differences between employer contributions and proportionate share of contributions; and (5) contributions made subsequent to the measurement date. This amount is deferred and amortized over future years.

5. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement System (PERS) sponsored and administered by the State of New Jersey additions to/deductions from this retirement system's fiduciary net position have been determined on the same basis as they are reported by the retirement system. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

6. Net Position/Fund Balance

Government-Wide Statements

In the government-wide statements, there are three classes of net position:

- **Investment in capital assets** – consists of the cost of capital assets less accumulated depreciation.
- **Restricted net position** – reports net position when constraints placed on the residual amount of noncapital assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted net position** – any portion of net position not already classified as either investment in capital assets or net position – restricted is classified as net position – unrestricted.

G. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position

6. Net Position/Fund Balance (Continued)

Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted – net position have been depleted before unrestricted – net position is applied.

Governmental Fund Statements

Fund balance categories are designed to make the nature and extent of the constraints placed on the District's fund balance more transparent. These categories are comprised of a hierarchy based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

Restricted Fund Balance – Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Capital Projects – Represents fund balance restricted specifically for capital acquisitions and improvements in the Capital Projects Fund.

Assigned Fund Balance – Amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Year-End Encumbrances – Represent outstanding purchase orders for goods or services approved by management for specific purposes from available resources of the current year for which the goods and materials have not yet been received or the services have not yet been rendered at June 30.

Designated for Subsequent Year's Expenditures – This designation was created to dedicate the portion of fund balance appropriated in the adopted 2017 District budget certified for taxes.

Unassigned Fund Balance – Represents fund balance that has not been restricted, committed or assigned to specific purposes within the governmental funds.

H. Revenues and Expenditures

I. Program Revenues

Amounts reported as program revenues in the district-wide statement of activities include 1) charges to customers or applicants for goods or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, investment earnings and miscellaneous revenues.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Revenues and Expenditures (Continued)

2. *Fire District Taxes*

Upon the proper certification to the assessor of the municipality in which the Fire District is located, the assessor shall assess the amount of taxes to be raised in support of the Fire District's budget in the same manner as all other municipal taxes. The collector or treasurer of the municipality shall then pay over to the treasurer or custodian of funds of the Fire District the taxes assessed in accordance with the following schedule: on or before April 1, an amount equaling 21.25% of all moneys assessed; on or before July 1, an amount equaling 22.5% of all moneys assessed; on or before October 1, an amount equaling 25% of all moneys assessed; and on or before December 31, an amount equaling the difference between the total of all moneys so assessed and the total amount of moneys previously paid over.

3. *Revenues and Expenditures*

Revenues are recorded when they are determined to be both available and measurable. Generally, fees and other non-tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures are recorded when the related liability is incurred, if measurable, except for unmatured interest on general long-term debt, which is recognized when due.

NOTE 2 DETAILED NOTES ON ALL FUNDS

A. Cash Deposits and Investments

Cash Deposits

The District's deposits are insured through either the Federal Deposit Insurance Corporation (FDIC), National Credit Union Share Insurance Fund (NCUSIF), Securities Investor Protection Corporation (SIPC) or New Jersey's Governmental Unit Deposit Protection Act (GUDPA). The District is required to deposit their funds in a depository which is protecting such funds pursuant to GUDPA. The New Jersey Governmental Unit Deposit Protection Act requires all banks doing business in the State of New Jersey to pledge collateral equal to at least 5% of the average amount of its public deposits and 100% of the average amount of its public funds in excess of the lesser of 75% of its capital funds or \$200 million for all deposits not covered by the FDIC.

Bank balances are insured up to \$250,000 in the aggregate by the FDIC for each bank. NCUSIF insures credit union accounts up to \$250,000 in the aggregate for each financial institution. SIPC replaces cash claims up to a maximum of \$250,000 for each failed brokerage firm. At December 31, 2016, the book value of the District's deposits was \$1,348,901 and the bank balance of the District's deposits was \$1,353,680. Of the bank balances \$250,000 was covered by FDIC and \$1,103,680 was covered by GUDPA.

A. Cash Deposits and Investments (Continued)

Investments

The District is permitted to invest public funds in accordance with the types of securities authorized by N.J.S.A. 40A:5-15.1. Investments include bonds or other obligations of the United States or obligations guaranteed by the United States of America, Government Money Market Mutual Funds, bonds or other obligations of the District or bonds or other obligations of the school districts which are a part of the District or school districts located within the District, Local Government investment pools, and agreements for the repurchase of fully collateralized securities, if transacted in accordance with NJSA 40A:5-15.1 (8a-8e). In addition, the District is permitted to invest LOSAP Funds with the types of eligible investments authorized in NJAC 5:30-14.19. LOSAP investments include interest bearing accounts or securities, in which savings banks of New Jersey are authorized to invest their funds, New Jersey Cash Management Fund, fixed and variable individual or group annuity contracts, mutual fund shares or fixed and variable life insurance contracts.

As of December 31, 2016, the District had the following investments:

	Fair Value (Unaudited)
<u>2016</u>	
Length of Service Award Program	\$ <u>390,575</u>

Custodial Credit Risk – Investments – For an investment, this is the risk, that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are held by an outside party. The District does not have a policy for custodial risk. As of December 31, 2016, \$360,575 of the District's investments was exposed to custodial credit risk as follows:

	Fair Value (Unaudited)
<u>2016</u>	
Uninsured and Collateralized:	
Collateral held by pledging financial institution's trust department but not in the District's name	\$ <u>390,575</u>

Interest Rate Risk – The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – State law limits investments as noted above (N.J.S.A. 40A:5-15.1). The District does not have an investment policy that would further limit its investment choices.

Concentration of Credit Risk – The District places no limit in the amount the District may invest in any one issuer.

The fair value of the above-listed investment was based on quoted market prices.

NOTE 3 OTHER INFORMATION

A. Employee Retirement Systems and Pension Plans

The State of New Jersey sponsors and administers the following contributory defined benefit public employee retirement system (retirement system) covering substantially all state and local government employees which includes those District employees who are eligible for pension coverage.

Public Employees' Retirement System (PERS) – established in January 1955, under the provisions of N.J.S.A. 43:15A to provide coverage, including post-retirement healthcare for those eligible employees whose local employers elected to do so, to substantially all full-time employees of the State or any county, municipality, school district, or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and, if applicable, 25 years for post-retirement healthcare coverage. PERS is a cost-sharing multi-employer defined benefit pension plan.

The State of New Jersey sponsors and administers the following defined contribution public employee retirement program covering certain state and local government employees which include those District employees who are eligible for pension coverage.

A. Employee Retirement Systems and Pension Plans (Continued)

Defined Contribution Retirement Program (DCRP) – established under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2008 to provide coverage to elected and certain appointed officials, effective July 1, 2007. Membership is mandatory for such individuals with vesting occurring after one (1) year of membership. This provision was extended by Chapter 1, P.L. 2010, effective May 21, 2010, to new employees (Tier 2) of the PFRS and new employees who would otherwise be eligible to participate in PERS and do not work the minimum required hours but earn a base salary of at least \$5,000 are eligible for participation in the DCRP. DCRP is a defined contribution pension plan.

Other Pension Funds

The state established and administers a Supplemental Annuity Collective Trust Fund (SACT) which is available to active members of the State-administered retirement systems to purchase annuities to supplement the guaranteed benefits provided by their retirement system. The state or local governmental employers do not appropriate funds to SACT.

The cost of living increase for PERS is funded directly by the respective system, but is currently suspended as a result of reform legislation.

According to state law, all obligations of each retirement system will be assumed by the State of New Jersey should any retirement system be terminated.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems, funds, and trust. The financial reports may be accessed via the New Jersey, Division of Pensions and Benefits website at www.state.nj.us/treasury/pensions.

Basis of Accounting

The financial statements of the retirement system is prepared on the accrual basis of accounting. Employer contributions are recognized when payable to the retirement system. Benefits and refunds are recognized when due and payable in accordance with the terms of the retirement system.

Investment Valuation

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair values.

The State of New Jersey, Department of the Treasury, Division of Investment, issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund. The financial report may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290, or at www.state.nj/treasury/doinvest.

A. Employee Retirement Systems and Pension Plans (Continued)

Funded Status and Funding Progress

As of July 1, 2015, the most recent actuarial valuation date, which was rolled forward to June 30, 2016, the aggregate funded ratio for all the State administered retirement systems, including local PERS is 45.7 percent with an unfunded actuarial accrued liability of \$50.3 billion. The aggregate funded ratio and unfunded accrued liability for the local PERS system is 40.14 percent and \$29.6 billion, respectively.

The funded status and funding progress of the retirement systems includes actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the retirement systems in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at that point in time. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and members in the future.

Actuarial Methods and Assumptions

In the July 1, 2015 actuarial valuations, the date of the most recent actuarial valuations, the projected unit credit was used as actuarial cost method, and the five year average of market value was used as asset valuation method for pension trust funds. The actuarial assumptions included (a) 7.65% for investment rate of return for and (b) changes to projected salary increases applied through the year 2026 of 1.65-5.15 percent based on age for PERS.

Employer and Employee Pension Contributions

The contribution policy is set by laws of the State of New Jersey and contributions are required by active members and participating employers. Plan members and employer contributions may be amended by State of New Jersey legislation, with the amount of contributions by the State of New Jersey contingent upon the annual Appropriations Act. As defined, the various retirement systems require employee contributions based on 7.06% for PERS and 5.50% for DCRP of employee's annual compensation.

Annual Pension Cost (APC)

Per the requirements of GASB Statement No. 27, *Accounting for Pensions by State and Local Government Employees*, for the year ended December 31, 2016 for PERS, which is cost sharing multi-employer defined benefit pension plans, annual pension cost equals contributions made. In the DCRP, which is a defined contribution plan, member contributions are matched by a 3% employer contribution.

The PERS contributions are recognized in the governmental fund statements (modified accrual) as an expenditure. The DCRP contributions are recognized in the governmental fund financial statements (modified accrual) as an expenditure, as well as the district-wide statements (accrual basis) as an expense.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Public Employees Retirement System (PERS)

At December 31, 2016, the District reported in the statements of net position a liability of \$362,952 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The District's proportionate share of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating governmental entities, actuarially determined. As of the measurement date of June 30, 2016, the District's proportionate share was .00123 percent, which was an increase of .00004 percent from its proportionate share measured as of June 30, 2015 of .00119 percent.

For the year ended December 31, 2016, the District recognized in the statements of district-wide statement of activities (accrual basis) pension expense of \$37,119 for PERS. At December 31, 2016 the District reported deferred outflows of resources and deferred inflows of resources related to PERS pension from the following sources:

Actuarial Assumptions

Assumptions for mortality improvements are based on Society of Actuaries Scale AA.

The actuarial assumptions used in the July 1, 2015 valuation was based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2016, as reported for the year ended December 31, 2016 is summarized in the following table:

<u>Asset Class</u>	<u>2016</u>

B. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance – The District maintains commercial insurance coverage for property, liability and surety bonds. Insurance coverage was maintained in amounts consistent with prior years. The District did not have any claims that exceeded coverage.

New Jersey Unemployment Compensation Insurance – The District has elected to fund its New Jersey Unemployment Compensation Insurance under the “Benefit Reimbursement Method”. Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District’s expendable trust fund for the current and prior year:

<u>Fiscal Year</u>	<u>District Contributions</u>	<u>Employee Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>

2015	-	648	98	14,617
2014	-	669	-	14,067

C. Fund Balance Appropriated

General Fund – Of the \$884,232 General Fund fund balance at December 31, 2016, \$51,096 is designated for encumbrances, \$269,592 has been appropriated for tax relief and included in the 2017 budget and \$563,544 is unassigned.

Capital Projects Fund – Of the \$352,467 Capital Projects Fund fund balance at December 31, 2016, \$352,467 is restricted for capital projects.

NOTE 4 LENGTH OF SERVICE AWARD PROGRAM (LOSAP) (UNAUDITED)

The Woodbridge Township Fire District No. 11 Length of Service Award Program (LOSAP) was created pursuant to Section 457 (e)(11)(13) of the Internal Revenue Service Code of 1986, as amended, except for provisions added by reason of the Length of Service Award Program as enacted into federal law in 1997.

The tax deferred income benefits for active volunteer members of the Woodbridge Township Fire District No. 11 come from contributions made solely by the District, on behalf of those volunteers who meet the criteria of the Program created by the governing body.

If an active member meets the year of active service requirement, a LOSAP must provide a benefit. While the maximum amount is established by statute, it is subject to periodic increases that are related to the consumer price index (N.J.S.A. 40A:14-185(f)). The Division of Local Government Services will publish changes to the permitted maximum on an annual basis.

**WOODBIDGE TOWNSHIP FIRE DISTRICT NO. 11
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

NOTE 4 LENGTH OF SERVICE AWARD PROGRAM (LOSAP) (UNAUDITED) (Continued)

The Woodbridge Township of Fire District No. 11 contributed \$1,674 per eligible volunteer into the Program, based on the annual accumulated points of each member for the year ended December 31, 2016.

In accordance with the amendments to Section 457 of the Internal Revenue Code and the State Deferred Revenue Regulations, the District has placed the amounts deferred, including earnings, in a trust for the exclusive benefit of the Program participants and their beneficiaries.

Volunteer Firemen's Insurance Service Inc. (VFIS) is the administrator of the Program. The District's practical involvement in administering the Program is essentially limited to verifying the eligibility of each participant and remitting the funds to the Program administrator.

Reporting Requirements

The New Jersey Administrative Code NJAC 5:30-14.49 requires that the District perform a separate review report of the Program in accordance with the American Institute of Certified Public Accountants (AICPA) Statement on Standards for Accounting and Auditing Review Services. Since a review does not constitute an audit, the financial statements pertaining to the program are presented as unaudited in this report as part of the District's Fiduciary Funds.

NOTE 5 TAX ABATEMENTS

For the year ended December 31, 2016, the Township of Woodbridge provided property tax abatements through the Long Term Tax Exemption Law (the "LTTE Law") to the certain properties within the District.

- The Long Term Tax Exemption Law (NJSA 40A:20 et.seq.) is focused on broad areas of redevelopment. It allows for a longer abatement term to carry out a larger development plan through declaring an area as being "in need of redevelopment". These long-term property abatements may last up to 30 years from completion of a project or 35 years from execution of the financial agreement. The process is initiated when the municipality passes a resolution calling for the municipal planning board to study the need for designating an area "in need of redevelopment". Upon adopting the planning board's recommendations and formalizing the redevelopment area designation, a municipality adopts a redevelopment plan, engages redevelopment entities to carry out the plan, and may authorize long-term tax abatements in the process. Developers submit abatement applications to the governing body for review. The financial agreement is approved through adoption of a local ordinance. The agreement exempts a project from taxation, but requires a payment in lieu of taxes (PILOTs) in an amount based generally on a percentage of project costs or revenue generated by the project, depending on the type of project. For the year ended December 31, 2016 the Township abated District property taxes in the District totaling \$81,593 under the LTTE program. The Township received \$20,412 in PILOT payments under this program for the year ended December 31, 2016.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

INDEPENDENT AUDITOR'S REPORT

Board of Fire Commissioners
Woodbridge Township Fire District No. 11
P.O. Box 125
Iselin, New Jersey 08830

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Woodbridge Township Fire District No. 11 as of and for the year ended December 31, 2016 and the related notes to the financial statements, which collectively comprise the Woodbridge Township Fire District No. 11's basic financial statements and have issued our report thereon dated April 26, 2017. Our report on the financial statements was modified because of the presentation of the unaudited LOSAP Trust Fund financial statements.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Woodbridge Township Fire District No. 11's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Woodbridge Township Fire District No. 11's internal control. Accordingly, we do not express an opinion on the effectiveness of the Woodbridge Township Fire District No. 11's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

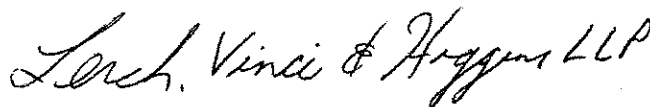

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Woodbridge Township Fire District No. 11's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

However, we noted a certain matter that is not required to be reported under Government Auditing Standards that we reported to management of the Woodbridge Township Fire District No. 11 in the section of this report of audit entitled "General Comments and Recommendations".

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Woodbridge Township Fire District No. 11's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Woodbridge Township Fire District No. 11's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

GENERAL COMMENTS AND RECOMMENDATIONS

GENERAL COMMENTS

Current Year

The audit of expenditures indicated quotes were not obtained for plumbing services and bathroom renovations that exceeded the quote threshold. It is recommended that quotes be obtained for all expenditures that exceed the quote threshold.

Contracts and Agreements Required To Be Advertised for N.J.S. 40A:11-4

N.J.S. 40A:11-4 states, "Every contract or agreement, for the performance of any work or the furnishing or hiring of any materials or supplies, the cost or the contract price whereof is to be paid with or out of public funds not included within the terms of Section 3 of this act, shall be made or awarded only by the governing body of the contracting unit after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other law. No work, materials or supplies shall be undertaken, acquired or furnished for a sum exceeding in the aggregate \$17,500, except by contract or agreement".

If the District has a purchasing agent who is qualified pursuant to subsection b. of Section 9 of P.L. 1971, c.198 (C.40A:11-9), the District may establish the bid threshold up to a maximum of \$40,000. The District has entered into a shared service agreement with the Township of Woodbridge to utilize the Township's Qualified Purchasing Agent (QPA). The bid threshold approved for the Township's QPA is \$40,000.

The Governing Body of the District has the responsibility of determining whether the expenditures in any category will exceed \$40,000 within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the District Attorney's opinion should be sought before a commitment is made.

The minutes indicate that resolutions were adopted and advertised authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S. 40A:11-5. Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishings or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear violations existed.

RECOMMENDATIONS

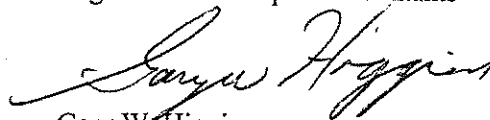

It is recommended that quotes be obtained for all expenditures that exceed the quote threshold.

Status of Prior Year Recommendations

A review was performed in the prior year's recommendations and corrective action was taken.
